PREMIUM TECHNOLOGY

NEOFROST DUAL COOLING TECHNOLOGY

Unlike conventional single-cooling systems, NeoFrost cools twice as fast with two separate cooling systems that maintain optimal humidity in the fridge while keeping the freezer frost-free.

IONGUARD

Advanced IonGuard technology creates a fresh air environment inside your refrigerator to protect and preserve foods longer and eliminate odor transfer.

FREEZE GUARD

Beko freezers will work in ambient temperatures between 32°F and 110°F without any loss of performance at any pre-set temperature of the unit, thanks to effective usage of inverter compressor and electronic control technology.
